REPORT NO.

25X1X

Attachment:

A copy of a report by the Department for Carbon Products, Main Administration for Chemical Products, of the State Secretariat for Chemical Products, Stones and Earth, in Berlin dated 9 November 1951, concerning the estimated requirements and supply of mineral oils and carbon products in 1952. The report was submitted to the Central Planning Office of the State Planning Commission in Berlin for approval.

25X1A Comment. All the statistics in this report are total figures for the year and are indicated in tons. The requirements listed include only the German, and not the Soviet, consumers. Figures followed by the word "red" in brackets, indicate the actual production. Where no production figures are listed, the production equals the requirements. The Carl Netz Firm is located at 43 Spitzweidenweg in Jena. The abbreviation N or Nova means Montanweichwachs (montan soft wax).
